

11 April 1958

MEMORANDUM FOR THE RECORD

SUBJECT: Visits by Non-IAC Personnel to the Intelligence Products Exhibit

25X1A9a

1. [REDACTED] called this date and advised as follows with reference to the question of admitting non-IAC personnel engaged in NIS work to the Intelligence Products Exhibit.

2. He said Security could not give a "yes" or "no" decision on this matter. Security suggested that the names of such individuals be submitted by the NIS Committee member of the agency for whom the individual is working on NIS. These names should be listed separately and identified as non-IAC personnel under the name of the agency for whom the individual is working on the NIS, together with certification of the security clearance status. This list is to be submitted through OBI to O/TR two weeks prior to the Exhibit. O/TR will submit it to Security who will check each name and determine whether or not the individual may attend.

3. The present security classification of the Intelligence Products Exhibit is TOP SECRET and therefore all personnel invited to attend must have a TS clearance status; however, [REDACTED] said steps are presently being taken to see if the Exhibit can be lowered to SECRET. 25X1A9a
